

Install EndNote X 20 (Windows & MacOS)

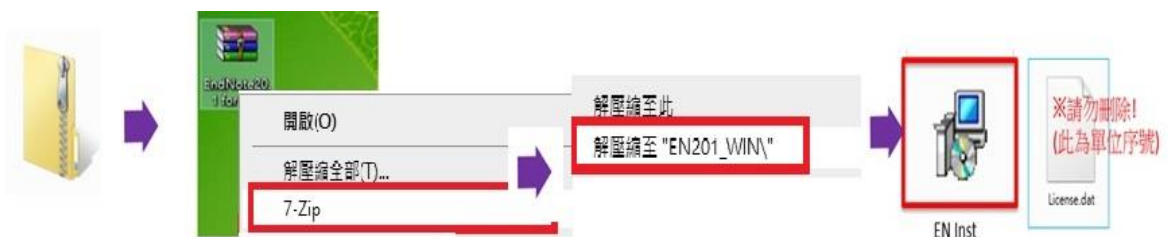

[EndNote Download Links](#) : Download EndNote software from library site (log in required)

Select the EndNote for your computer i.e **MacOS vs. Windows**

Windows (limited to Windows 10 system):

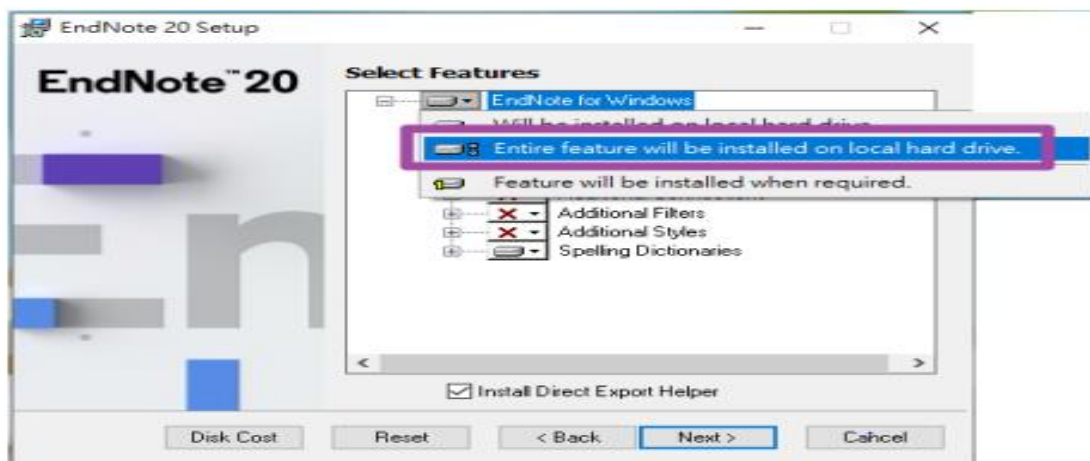

EndNote X 20 Inst.exe zipped folder file will download. The computer must be installed to decompress the zip software. ([Suggest Install 7-Zip Download](#) first.)

1. Right click and select **Extract EndNote**
2. The files will be extracted to a selected folder such as your desktop or documents.

3. Click **next** and follow the prompts to EndNote setup

Select Features : choose “Entire feature will be installed on local hard drive”

4. Agree licensing terms and follow the prompts to **Finish** installation.

MacOS:

1. **EndNote X 20 Installer.dmg** file will download
2. Click save (on your desktop or documents)
3. Open **Install EndNote X20 App** from the prompt. You can also drag and drop the dmg file to the Applications folder to install.
4. Agree licensing terms and follow the prompts to complete installation.
